Placide S

Major: Computer Science

My Ip Address: 130.64.64.35

Place Where I Grew Up: Rwanda

This Place has been the King's Palace in Rwanda, and it has been nearby home. This place Preserve our culture, and has the special cows called "Inyambo".Inyambo has a great history in Rwanda, and they have been used during the weeding as a sign of wealth. Not only having Inyambo cows, it is a museum where the most of the visitors go there to learn much about Rwandan Kingdom.

My Favorite Restaurant:

Picante restaurant

One thing special about me: I am turning 24 years old soon

Questions:

- **Name one thing you like about using GitHub and one about using Cpanel hosting.**
    - **For GitHub:**
        - I love that I can push or commit from my VS Code and be edited from GitHub, the same way that I can edit from GitHub and sync it from GitHub to my Vs Code.
        - GitHub also has a free deployment that makes it much easier to deploy your project just to have a view of it to the public.
    - **For Cpanel Hosting:**
        - It makes it easier to view your website, and it has a free domain created under Siteground.
- **What was the most satisfying part of this assignment?**
    - I was excited to use Git and make different commits from the Vs Code to my GitHub.
